

Core Python

1-Month Training Program

Duration: 1 Month (4 Weeks)

Class Timing: 2 Hours per Day

Catalog

1-Month Core Python Training Program

01

1. Training Overview

02

2. Week 1: Python Basics

03

3. Week 2: Control Structures

04

4. Week 3: Functions & Data Structures

05

5. Week 4: Advanced Basics

06

6. Assessments & Final Evaluation

Training Overview

Duration

1 Month (4 Weeks)

Class Timing

2 Hours per Day

Tools & Tech

Python, VS Code

OUTCOME

Strong foundation in Python programming

Week 1 - Python Basics

Foundational concepts for programming in Python

Basics

- Variables & Data Types

I/O & Operators

- Operators & Input/Output

"Setting the stage for logical thinking and data manipulation."

Week 2 - Control Structures

Directing the flow of execution in Python

Conditionals

- if, elif, else

Loops

- for & while loops
- Pattern programs

"Mastering the logic behind repetitive tasks and decision making."

Week 3 - Functions & Data Structures

Modular programming and efficient data management

Functions

Functions & Lambda

Sequence & Set Types

Lists, Tuples, Sets

Mapping Types

Dictionaries

Week 4 - Advanced Basics

Transitioning to professional development practices

Robustness

Exception Handling

Persistence

File Handling

Structure

OOP (Intro)

Assessments & Final Evaluation

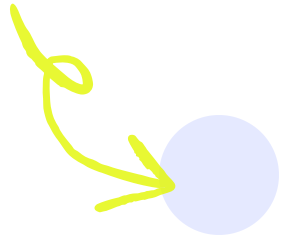

Assessments

Every Friday
(Weekly Assessment)

Final Evaluation

Python Coding Test
